A Presentation for Parents!

Meeting the Challenge of Raising Healthy, Happy, and “Gritty” Children

Learn how to balance family dynamics, strengthen children's grit, perseverance, work ethic, and resiliency. Understand the challenges of today's technology, health and well-being factors, the effects of growing up in a “toxic” society, and how to handle the “*children without childhood*” generation. Sharpen your parenting skills with Jim's common sense parenting tips, advice and strategies. He will show you how to team with your children's teachers in a win-win partnership.

★ *This is a parent presentation; free childcare will be provided on-site.*

Please RSVP to Mrs. Marcia Phillips by phone, email, or use the tear-off section below.
