

# Mr. Colann's Future Engineers: Amusement Park Fun!

(S.T.E.M. based activities)

Build amusement park rides such as rollercoasters and Ferris Wheels using K'NEX and Legos. We will also build other amusement park games to play using various other materials. This is a great activity to improve fine motor skills and increase spatial relationships and have FUN! The students will also use their creativity to create their own carnival style games for others to play. This is an activity for all students.

**Session 2:** Weeks of October 16 –December 11

K-6th grade: Thursdays 3:00-4:00

(10/19, 10/26, 11/2, 11/9, 11/16, 11/30, 12/7, 12/14)

Cost: \$60 for the 8-week session

Teacher: Mr. Colann
