

Future Engineers with Mr. Colann: Bridges, Skyscrapers, and Famous Landmarks

(S.T.E.M. based activities)

We will travel the world while learning about and constructing various types of bridges, skyscrapers, and towers using K'NEX and Legos and various other materials. This is a great activity to improve fine motor skills and increase spatial relationships. Your child will be able to test their models out and how they can improve their designs to make them stronger. This session will include some make and take activities.

Session 3: Week of January 14 – March 4

K-6th grade: Fridays 3:00-4:00

(1/18, 1/25, 2/1, 2/8, 2/15, 2/22, 3/1*, 3/8)

*March 1st is an early release day.

That class will be held from 12:00-1:00pm*

Cost: \$60 for the 8-week session

Teacher: Mr. Colann

Room 112

Checks payable to: Don Colann
