

Happy Valley Math Lab

Is your student struggling in math? Do you feel they might need some extra help brushing up on math concepts to help prepare for AZMerit testing.

Beginning in January, Happy Valley School is offering the Happy Valley Math Lab to all students in grades 5-8. During the 1-hour sessions, students will review appropriate, grade-level material to help them prepare for AZ Merit, to help solidify concepts within their regular course work and to provide homework help, if needed. Mr. Hoover, (Happy Valley 6-8 Math Instructor) will be conducting these sessions

The cost of this Math Lab is \$60 per 8-week session. The sessions will be every Wednesday **OR** Friday for 8 weeks. The 8-week session will begin January 15, 2020. Homework will not be assigned during the Math Lab. This is a controlled environment in which your student can get extra help in Math and begin to prepare for AZMerit testing. (A minimum of 10 students per day will be needed with a maximum of 20 students per class). **Please make checks payable to Mr. Hoover.**

Wednesday 8-week session (\$60)

Friday 8-week session (\$60)

Both Wednesday & Friday 8-week sessions (\$120)
