# HVS Updated COVID Safety Procedures

## Campus Cleanliness and Safety Features:

- Increased disinfecting of classrooms and common areas throughout the day. Use of disinfectants approved by the CDC for COVID.
- Additional nightly disinfecting in all areas throughout the school using an approved CDC disinfectant.
- All drinking fountains closed for usage:

Students MUST bring personal water bottle daily for personal use only.

- Approved alcohol-based Hand Sanitizer will be available throughout the facility.
- Additional bathroom sanitation routines to assure cleanliness and sanitizing agents.
- Use of an isolation room for ill students departing campus. Room will be disinfected immediately upon a departure and prior to any other students entering area.
- Students departing campus from isolation room will exit through a side, outside door to safeguard others within building.
- Review and practice of proper handwashing/sanitizing throughout the day for all staff and students.
- Frequent review of updated required/recommended safety procedures provided by the CDC, Arizona Dept of Health to guide campus decisions.

## School Safe Practices:

- Staggered drop off/pick up/recess and lunch times on campus to allow for social/physical distance to the extent possible.
- Students will remain with their own class throughout the school day, including recess/lunch time.
- Required face coverings/masks/shields for ALL staff and students. See list of approved face coverings. Please send an extra face covering in case of need.
- Visitor restrictions: Only Essential personnel admitted into building with required face coverings.
- All employees required to complete a daily self-check for CDC listed symptoms prior entry to campus.
- Parents required to complete a daily student check for CDC listed symptom prior to leaving home in the morning before getting on bus and entry to campus.
- Employee trainings completed for all safety procedures, guidelines, and expectations, including PPE information for isolation room.
