

HVS Updated COVID Safety Procedures

Campus Cleanliness and Safety Features:

- Increased disinfecting of classrooms and common areas throughout the day. Use of disinfectants approved by the CDC for COVID.
- Additional nightly disinfecting in all areas throughout the school using an approved CDC disinfectant.
- All drinking fountains closed for usage:
Students MUST bring personal water bottle daily for personal use only.
- Approved alcohol-based Hand Sanitizer will be available throughout the facility.
- Additional bathroom sanitation routines to assure cleanliness and sanitizing agents.
- Use of an isolation room for ill students departing campus. Room will be disinfected immediately upon a departure and prior to any other students entering area.
- Review and practice of proper handwashing/sanitizing throughout the day for all staff and students.
- Frequent review of updated required/recommended safety procedures provided by the CDC, Arizona Dept of Health to guide campus decisions.

School Safe Practices:

- Staggered drop off/pick up/recess and lunch times on campus to allow for social/physical distance to the extent possible.
- Students will remain with their own class throughout the school day, including recess/lunch time.
- Recommended face coverings/masks/shields for ALL staff and students.
- Employee trainings completed for all safety procedures, guidelines, and expectations.
